

[KOF099]

Shit Devourer – Pop Sensation

Release Year: 2011

Genre: Experimental

Description of Release: Compulsively impulsive insane art-music. This will likely piss off audiophiles and hopefully serve as a fix for sound junkies. Partly to put previously recorded individual songs onto an official release and partly to house recent experiments. If you ever plan on getting laid I wouldn't play this in public.

Tracklisting:
